

***In the Specification:***

Please replace the second full paragraph on page 7 under the title “Description of the tables and figures.” with the following paragraph:

Table 1 summarizes the characteristics of non-allergenic Bet v 1-derived synthetic peptides. Position, sequence, length, molecular weight, isoelectric point, residual fold, presence of T cell epitopes and AGADIR prediction of six Bet v 1-derived peptides are displayed. Epitopes 1-6 are SEQ ID NOs: 1-6, respectively
